ABOUT ME

Passionate React.js developer with a strong background in software development. Skilled in building and maintaining web applications using React, Node.js, Redux, Express.js, and MongoDB. Committed to delivering high-quality, efficient, and scalable software solutions.

WORK EXPERIENCE

Sofit Consultancy February 2024 - Present

- Developed and implemented a meal subscription management system using the MERN Stack.
- Utilized Ant Design (AntD) for an intuitive and user-friendly interface.
- Managed global state efficiently using Redux Toolkit.
- Used Axios for seamless and efficient API calls.
- Enabled user functionalities for subscribing to meal plans, lodging meal complaints, and skipping meals.
- Automated daily meal requests to vendors with a cron job running at 9 AM and 9 PM, sending email notifications to vendor.
- Implemented admin capabilities to set meal prices, determine employee and company contributions, and view yearly sales through React charts.

Teacher Assistant | Riphah International University

- Object Oriented Programming**
February 2024 - June 2024
- Programming Fundamentals**
September 2023 - January 2024
